

Why Women's Discipleship Matters

*There is a need for intentional discipleship among women.
God has given us an opportunity to respond.*

*A stronger
Church through

Jesus and make
disciples.*

The Challenge

Many women have a desire to grow in Christ but lack a relational discipleship pathway.

Women are often uniquely positioned to disciple other women within families, churches, communities, and workplaces.

Discipleship must move beyond gathering and teaching toward helping women follow Jesus and make disciples.

The Opportunity

God is already at work through women around the world.

Women discipling women creates a natural relational pathway for spiritual growth.

A trained woman can disciple other women who can then disciple others.

Local relationships can become multiplying Core Groups.

Women from different cultures and generations can participate in the same biblical discipleship movement.
